Talon Lockjaw Inspection Sheet

Date: _____

Inspected By: _____

Position 1

Position 2

Position 3

Position 4

Position 5

Position 6

Position 7

Position 8

Position 9

Position 10

Example "A" indicates that the lock is in a good position and no maintenance is required for the shroud.

Example "B" indicates that the lock is getting toward the end of the safe zone. **Insert (LJI-H)** in boss or cast corner should be changed returning the lock position toward the six o'clock mark of better. Refer Insert Doc.....
